

# **Knot in Hyde Park Committee**

Wednesday, August 21, 2024

Virtual Meeting 5:30 PM

## **MINUTES**

In attendance: MW, FL, RP, TP, WL, and TB (full house) + guest Brice Rader

Introduced Brice who has volunteered on several occasions at various sites.

Discussed the various sites and the need for coverage now that Intern Ella has stopped for the season.

Cricket Hill site – we agreed to put more bamboo markers at the site to measure/track possible lateral spread. There will be a final season cut in Sept with students and Chris Whitlock. Also perhaps start to measure and note the height of the stalks at the beginning of each cut.

LVRT WE KW pull scheduled for 4 September.

MW and WL will meet with Morrisville Alliance for Commerce and Culture (MACC) who reached out about their KW at the trough on Route 100.

Intern report: this was a great success, albeit we did not deploy her for as many hours as anticipated. We know more about what we need to find in employee next season. Budget report next meeting.

Herbicide pilots report: Green River KW project (Watershed Grant) + Pilot sites follow-up from last year. Both are on track for early September.

Hyde Park Home Day parade participation back on. WL and MW to work on prep for that.

Next Meeting: 18 September, 5:30 PM, via Zoom.
